# Bamboo Bodysuits

Newly launched Bebe 2 be online store offers a range of eco-friendly bodysuits made from bamboo fabric for babies up to 24 months. Bamboo fabric has a soft and comfortable feel, similar to silk, and is naturally hypo-allergenic and anti-bacterial, making it perfect for babies' sensitive skin – especially those with eczema and allergies. It's breathable and thermo-regulating, too, helping babies deal with Hong Kong's changeable weather. To learn more, visit [www.bebe2be.com](http://www.bebe2be.com).
