BABY BOUTIQUE

New online baby boutique, Bebe 2 be, has launched a new range of eco-friendly bamboo babywear made from 100 percent biodegradable bamboo fabric. You'll find bodysuits for babies up to 24 months made from the fabric which the company says is perfect for baby's sensitive skin, as it's naturally hypo-allergenic and anti-bacterial and also thermo-regulating to keep little ones cool in the summer and warm in the winter. Bebe 2 be also stocks feeding accessories such as nursing covers, and the Dinky Diner portable chair, designed and made in New Zealand, as well as being the Hong Kong distributor for the New Zealand maternity brand EGG. www.bebe2be.com.
